COMMISSIONS

The exciting part of being a Professional Hair Labs Affiliate is the monthly commissions you can earn from the products* you share with your family, friends, and neighbors.

Commissions are calculated on the net sale—purchase price period.

Commissions may be lessened or voided within the return period if a chargeback or a refund (partial or full) is requested.

HOW IT WORKS

The commissions are calculated in real time and paid monthly, 30 days after a sale is made (return period).

You will be paid at 10% of your commissions earned.
